

ERRATA #3 – JANUARY 3, 2022

Appendices Titles and Content

The TATTR contains ten Appendices lettered A through J, as called out in the Table of Contents. These Appendices are provided in a single combined PDF with the TATTR document available online at the 495 NEXT project website. The following updates have been made to the Appendices:

- **Appendix E: Detailed Existing Conditions Freeway Operational Analysis Results:** an erroneously-labeled redundant second title page saying “Appendix D: Freeway Traffic Operations Results” has been removed.
- **Appendix G: Detailed Future Conditions Freeway Operational Analysis Results:** the tables were incorrectly providing a repeat of Appendix F (Existing Arterial results) instead of providing Future Freeway results. The correct tables are now in this Appendix.
